2023-2024

FB **F. BOSCH**
MEDIZINTECHNIK
GERMANY

Dear Customers and Friends,

Our company, a family-founded business, has been dedicated to the **art of manufacturing precision diagnostic devices for 100 years**. It is with great pride that we continue to hand-craft these instruments, piece by piece, at our manufacturing facility in Bisingen, Germany. This could not be possible without the strong bonds with our partners and distribution associates in each country where our brand is represented.

Over the last years, our company has expanded its product range by developing a comprehensive product portfolio that today counts **more than 100 unique F. Bosch products**, spanning across four major product categories: **Diagnostic Devices, Hospital/Medical Supplies, Hand Protection and Protective Clothing**.

As we celebrate the 100th-year anniversary of our company's brand, we are glad to present the full range of our products included in this latest product catalogue and warmly invite you to partake in **a year of celebrations**, culminating in the opening of our Sphygmomanometers Museum, which chronicles the historical progression of some of the earliest diagnostic devices, dating back to the late 1920s.

This anniversary marks a new era for F. Bosch as we embark on a **strategic plan for global growth** that involves leveraging our established network to increase sales both domestically and internationally, as well as embracing new local partners to disseminate our brand's values globally. Armed with a legacy of a century's manufacturing excellence and bolstered by fresh investments in products, technology, infrastructure and human talent, our aim is to grow into one of the world's most esteemed global medical brands.

We thank you for your continued trust in our company, and we look forward to **a future marked by innovation, collaboration, and shared success**.

Sincerely,

Josef Bieger
 Managing Director
 Friedrich Bosch GmbH & Co. KG

Founded & Headquartered in Germany

Our company, originally named 'Bosch+Haiss', was founded in 1924 by Friedrich Bosch and his brother-in-law Hermman Haiss in Jungingen, Germany. In 1993, both the company's offices and production facilities were relocated to Bisingen and have remained headquartered there ever since.

Side picture of the F. Bosch offices in Bisingen, Germany

In 2018, our company strategically set-up its Asian branch office in Hong Kong, through its affiliated company F. Bosch International Limited.

Global presence

Since the early 1990s, F. Bosch has participated in the majority of global medical fairs, including Medica (Düsseldorf, Germany), Arab Health (Dubai, UAE), Iran Med (Tehran, Iran), CMEF (Shenzhen, China), SALMED (Poznań, Poland) and numerous others in locations such as Miami, Singapore, Moscow, Sao Paolo, and Mumbai.

Quality, Safety & Compliance

At F. Bosch, our highest commitment is to provide products and services of unparalleled quality. To uphold this pledge, our Quality Control department conducts meticulous quality assessments, as well as unannounced external inspections and tests. We consistently adhere to the ISO 13485:2016 Quality Management System, which encompasses the production and distribution of medical devices throughout all our business operations.

- Ensure Customer Trust
- Minimize Product Claims
- Reduce Regulatory Risk

Compliance Icons Guide

Below, you'll find a concise breakdown of relevant regulations, aiding your navigation through the catalogue and facilitating a better understanding of the shown icons.

MDR EU 2017/745 & MDD 93/42/EEC - The Medical Device Regulations & Directives set comprehensive guidelines for the safety and performance of medical devices within the European Union.

PPE EU 2016/425 - The Personal Protective Equipment Regulation oversees the design, manufacture, and distribution of protective gear within the European Union ensuring that PPE products meet essential safety requirements.

EC 1935/2004 & EU 10/2011 - EC 1935/2004 sets the framework for materials intended for contact with food in the EU, while EU 10/2011 specifies specific rules on plastic materials and articles intended to come in contact with food.

Choosing the Right Examination Gloves

In the world of healthcare, the selection of examination gloves plays a pivotal role in ensuring the safety and comfort of both professionals and patients. To assist you in making an informed decision, we've compiled a table highlighting the main differences between nitrile, latex, and vinyl examination gloves.

Discover which option best suits your needs below:

| | LATEX | NITRILE | VINYL |
|---------------------|---|---|---|
| Comfort |  |  |  |
| Elasticity |  |  |  |
| Grip / Tactility |  |  |  |
| Tear resistance |  |  |  |
| Elongation | 800%* | 600%* | 300%* |
| Puncture resistance |  |  |  |
| Chemical resistance |  |  |  |
| Latex proteins | present  | Not present  | Not present  |
| Accelerators | present  | present  | Not present  |
| Plasticizers | Not present  | Not present  | present  |

 Highly recommended

 Recommended

 Not recommended

* Typical material elongation value in percentage

The information presented in this table is indicative. Glove performance is influenced by various factors, including abrasion, degradation, and more. Use this data as a general reference only.

New Distribution Center

In late 2023, our company introduced a new distribution center in Hechingen, Germany, located very close to its main offices. This strategic location enables swift order delivery not only within Germany but also throughout the rest of Europe.

With the establishment of this logistics center in Hechingen, our company now possesses the necessary space and technology to provide fast and flexible delivery options for products, whether they are in parcel, pallet, or full-truck orders. This development allows us to better meet the needs of our customers in Germany and across the broader European market.

400+
products immediately
available

Quick delivery
to all European countries

Competitive
freight offerings
